

### Journal scope

We consider manuscripts in all theoretical and applied fields of tropical biology, with a preference to in-depth studies of general interest based on significant samples, a solid experimental design and a modern quantitative analysis. We do not publish studies that only add details or cases to previously known phenomena, preliminary studies, communications, species lists, notes or other short articles, or highly specialized reports of limited interest.

### Format and page charges

Text must be clear, brief and without repetitions according to CSE norms ([www.cbe.org](http://www.cbe.org)). Use International System (SI) units and abbreviations (m, km, kg, ml, s; details in [www.bipm.fr/en/si/](http://www.bipm.fr/en/si/)).

Page charges: There is no compulsory page fee for the first ten printed pages. Additional pages will be charged \$50 each. A document that corresponds to the maximum length published free of charge typically has about 5 000 words, two figures and two small tables.

### Tables

Avoid very small or very large tables (half a page is usually a good size). Table headings must be brief. Do not use bold font, words completely spelled in upper case or separation lines. All symbols and abbreviations must appear as **footnotes**.

### Figures

Send photographs and other images inserted in the document; resolution 300-600 DPI, 14 cm wide. Labels: Helvetica 10 points.

### References

Present the list of references and citations within the text in APA 6<sup>th</sup> Edition format. We recommend freeware: [zotero.org](http://zotero.org) and [mendeley.com](http://mendeley.com)

### Stages in manuscript processing

Manuscripts that follow our scope and format indications are sent to three external reviewers who make recommendations to improve them or qualify them as unacceptable. The second draft is corrected by our staff and returned with instructions to prepare the final version for the printer. The Editorial Board has the final word on acceptance.

### Legal requirements

When authors submit a manuscript they share printed and electronic reproduction rights to the Journal and accept to comply with all Journal norms regarding procedure, format and other pertinent aspects.

### Ethical requirements

When authors submit a manuscript they accept to follow the Helsinki Ethical Norms ([www.onlineethics.org](http://www.onlineethics.org)); that all coauthors participated in the main aspects of research and agree to publication; and that the study is scientifically valid; has not been published before, and was not sent simultaneously to another journal.

### Submission

Follow all format details from a recent issue or check examples in [biologiatropical.ucr.ac.cr](http://biologiatropical.ucr.ac.cr)

All text and figures must be included within a single DOC, DOCX or RTF file; a scanned letter signed by all coauthors stating: **a-** that the document is original and all coauthors agree with its publication; **b-** that you meet our ethical requirements, **c-** the importance of your study to tropical biology and conservation, **d-** that you agree to pay excess page fee charges if required, and **e-** names and e-mail addresses of three possible reviewers. Submit via [revistas.ucr.ac.cr/index.php/rbt](http://revistas.ucr.ac.cr/index.php/rbt). Contact us if you do not hear from us in five days.
